

CONSIGNMENT AGREEMENT

This agreement is entered into between Lowergear Outdoors (Seller/Consignee) and

(Consignor)

Seller agrees to place on display the mutually agreed upon item or items within its regular show room display areas those items listed and attached hereto (Consigned Items) and to offer these items for sale in the regular course of its business. The initial asking prices to be set for the Consigned Items are as attached, and such asking prices are subject to change from time to time as the parties may agree. However, Seller may finalize a sale of a consigned item by up to 10% less than the asking price if in its discretion such reduction is needed to generate a sale.

Seller shall generate a calendar monthly report of any sales of the Consigned Items and submit a check to the Consignor’s address above in an amount equal to _____% of the pretax (and pre-shipping cost, if applicable) sales price of the Consigned Items. Optionally, Consignor can have store credit at _____% of the final sales price to be used to pay for any other used or new product or for any gear rental. These amounts, whether tendered as cash, check or account credit, are the “Consignor Proceeds”.

Seller shall is entitled to retain the difference between the amount paid by the end buyer and the “Consignor Proceeds” as payment for the service of selling the Consignment item on behalf of the Consignor.

Seller makes no representation as to the final market value of any Consigned Item and makes no representation as to how long an item may take to sell. Consignor may retrieve any unsold Consigned Item at any time and such item shall be removed from the attached list. Seller may choose to remove any Consigned Item from display at any time and will advise Consignor of such action so Consignor can retrieve the item for alternative sale or disposal.
